

Bar Bending

We are counted among the leading manufacturers and suppliers of a wide array of Bar Bending Machine. All these machines are fabricated with best quality raw materials and advance technology. Our range of these machines are sturdy constructed and stringently tested at various manufacturing stages before final delivery to our customers. The offered product is highly durable and economical as well

Features :

- Heavy reduction gear box
- Measurement table for measuring the length of the bar to be bent
- Special Bending Bushes for various bending radius
- 'U' Bending arm for making 'U' shape bends, available with different bush sizes for different radius
- Foot pedal control switch gives the ease of one-man operation for bending re-bars
- Safety aspects include hold-button feature which requires the operator to hold the button whilst bending
- The machine's easy installation and operation minimizes the using of labors

Specifications :

Size	Bending Capacity	Weight	Prime Mover
950 mm x 910mm x 890mm	52 mm DIA.	830Kgs. (Approx.)	7.5 H.P. -3 Ph Motor 1440RPM
950 mm x 910mm x 890mm	42 mm DIA	800Kgs. (Approx.)	5 H.P. 3 Ph Motor 1440RPM

Hot Mix Plant Double Drum

We are one of the prominent manufactures and exporters of a wide range of **Mobile Hot Mix Plant Double Drum**. Our **Hot Mix Plant** is separate drying and mixing system. Chassis of **Mobile Hot Mix Plant** made from Heavy duty M.S. Channel, Mounted on double axle with pneumatic tyres fitted with draw bar turntable for easy towing.

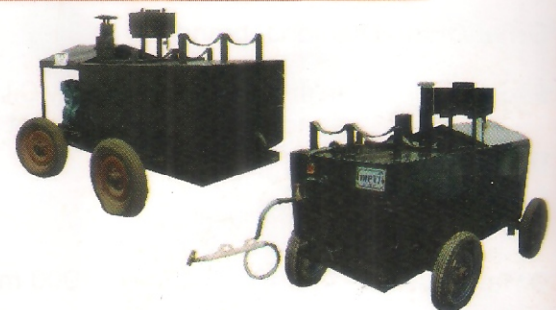

- A cold bucket elevator for feeding cold aggregates to the drum
- Capacity of Mobile Hot Mix Plant Double Drum is 8 10 Ton**
- Chassis Made from Heavy duty 200 x 75 x 8 mm Channel
- Drum of the Machine made from Heavy duty 5 mm M.S. sheet with Heavy Type Cast Iron gear ring
- The drum runs on 4 nos. of cast iron rollers with bearings
- The dryer is driven through reduction gear/pulley and chain drives/belt
- A bitumen boiler along with an efficient dust collector is provided
- The Hot Mix plant is fitted with adequate rated diesel engine.
- Toolbox, Jack is provided

Bitumen Boiler

Our clients can avail from us Oil Fired **Bitumen Boiler**. Bitumen Boilers are offered in 1300 Liters capacity. **Bitumen Boilers** are widely acclaimed among Road Construction Companies owing to their quality and high functionality.

- The space between the inner and outer Pan is packed with Glass wool covered with MS Sheet, mounted on fabricated chassis with pneumatic Tyre.
- Fitted with Oil Tank, Outlet and Inlet Valves, Oil Burner, Blowers Powered by 6 HP Air-cooled Diesel Engine

Bitumen Boiler Cum Spray, Cationic Spray, Wood Fired Boiler are also available
